## london offices/depots

## intro//

Concord Lifting Equipment Ltd. (CLE) has been offering lifting equipment hire, sales, service and testing for over 25 years throughout London and the South East.

Our job is simple - to be an integral part of our customers supply chain to ensure they complete projects as cost effectively and as easily as possible.

## numbers

- main no 03333 66 00 99
- wandsworth 020 8946 7902
- barking 020 8594 7529
- charlton 020 8465 5835
- st. Neots 01480 217605

Throughout our 4 locations in Wandsworth, Barking, Charlton and St. Neots we have a wealth of experience in lifting equipment and vacuum handling, and our employees take pride in using this knowledge and passion to offer an unrivalled service to our clients.

Our advantage over other lifting equipment providers lies in understanding what our customers need, our ability to provide practical and personalised lifting services, from managing the daily business challenges that impact all parties, to maintaining a forward thinking perspective by exploring new techniques and technologies

From the moment you first make contact through to job completion our team will offer you a personal service not found anywhere else in the industry.

1. Genie SLA 15 Material Lift with high quality steel forks, perfect for construction, maintenance and installation purposes. One of the many products CLE carry across all four depots.

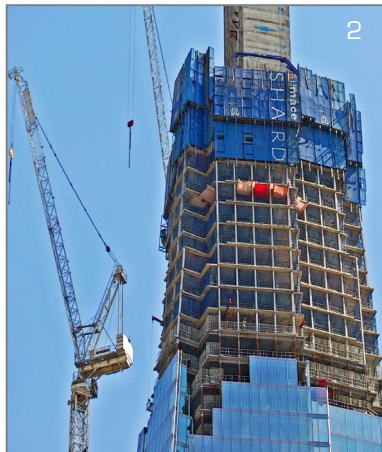

2. Fall Harness Inertia Reel. Available complete with shock absorbing lanyards or fixed rope lanyard.

1. CLE supplied all the lifting and handling equipment to Kier Ltd. for the re-glazing of London's Kings Cross station, along with stillages and trolleys to assist in the safe material handling on site.

2. As the Shard reached its 310m full height, CLE supplied specialist vacuum handling equipment to enable the fitting of some of the 11,000 panes of glass.

## projects //

No matter how small or large your project CLE have got you covered.

We understand the importance of the timely delivery of products & services to integrate with other activities in construction projects.

Our staff take as much pride in supplying lifting equipment and services to a small house renovation as they do in supplying equipment and services to some of the UK's major construction projects of the last 25 years - and have a wealth of experience in working with clients of all sizes.

Recent high profile projects CLE have supplied to include Heathrow Airport

Terminal 5, London's new City Hall, the passenger bridge at Gatwick airport, the Birmingham Library and the re-glazing of London's Kings Cross Station.

Along with supplying state of the art well maintained lifting equipment, CLE specialises in designing bespoke lifting equipment where needed for our customers.

An example being the 20 tonne lifting frame CLE designed and hired to Frosts Landscaping to relocate a large statue at Jubilee Gardens, behind the Millennium Wheel in London using their 100 tonne crane.

3. Construction of Heathrow's Terminal 5. CLE supplied lifting equipment, accessories and vacuum handling equipment to various firms involved in the expansion of London Heathrow.

## sales//

All 4 locations carry a broad range of lifting equipment, lifting accessories, and glass handling equipment for sale. All equipment is available for collection or delivery - either by a CLE technician or overnight courier.

## hire//

CLE offers a range of fully tested & certified plant, lifting and vacuum handling equipment and accessories across our 4 locations, for short or long term hire. All equipment conforms to the Health and Safety Act at work. Our experienced Depot Managers continuously monitor construction trends and stock levels to make sure they always have what you need when you need it.

## repair/maintenance//

CLE's preventative maintenance contracts are designed to meet your requirements for plant machinery, vacuum handling and lifting equipment offering out of hours service or time specific service for shut down periods- either on site or at any of the four locations. CLE's friendly, experienced engineers offer individual customer care

## testing//

CLE's trained & certified engineers offer testing and re-certifying for all major brands of lifting equipment to LOLER Regulations - both on and off site. Specialists in Genie repair and testing, CLE offer a 48 hour turnaround service and flexible maintenance & testing contracts. CLE's Barking, Wandsworth and St. Neots depots each have a specialised vacuum lifting facility with portrait and landscape 'live load' calibration and testing.

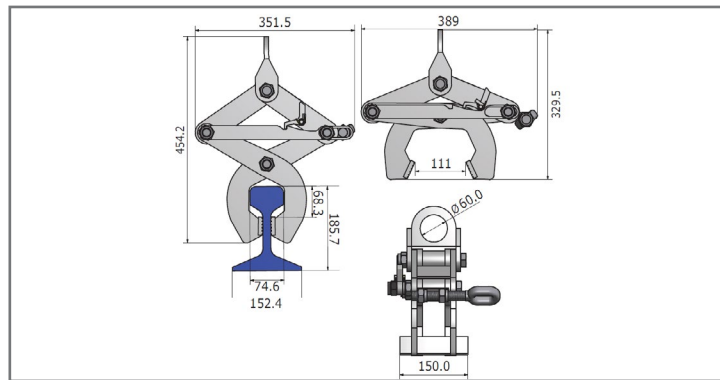

## delivery & collection //

For sales, hire & testing all equipment can either be collected from your closest depot or can be collected/delivered by CLE's trained technicians in one of our fleet of vehicles - Our fleet includes a variety of sizes of vehicles to suit all equipment / site access limitations; and all include real-time GPS tracking to deliver accurate ETA for time critical deliveries - We pick up the phone fast and deliver fast.

## design //

CLE design and fabricate bespoke lifting equipment—from one off custom installations through to permanent workshop solutions. From site visit through to design, manufacture and testing, CLE's experience in designing lifting equipment ensures you a perfect tailor made solution.

## on-site testing //

CLE offers 3, 6 and 12-Monthly inspections to Lifting Operations and Lifting Equipment Regulations 1998 (LOLER) designed to meet your company's needs. CLE specialise in the testing of a variety of products including Gantries, Lift shaft/Motor room beams, overhead cranes and Swing Jibs.

All CLE technicians are fully qualified in the examination and testing of a variety of products and always carry a comprehensive range of testing equipment needed to test your equipment on site.

After the thorough testing is complete, our technician will leave you with a hand-written and signed proof of certification in line with the Health and Safety at Work Act [1974]. Upon their return to a CLE office, this information is uploaded to our secure server, and replicated to a printed certificate which is delivered to you via email, fax or post - allowing you to obtain copies from us in the future at no extra charge, and for CLE's Account Managers to send you friendly reminders when equipment is next due for testing.

## specialists in genie Lifts//

Genie® products offer exceptional performance, safety and reliability. CLE were among the first lifting equipment companies in the UK to spot the quality and value in the Genie product range. CLE are proud to be a preferred testing, sales and hire partner for Genie® in the UK.

Every CLE depot carries a wide range of the Genie materials handling products for sale and hire, including the lightweight gas operated lifts.

For testing, all CLE Engineers are highly trained and experienced and Genie accredited. Our most experienced engineers have been stripping and rebuilding Genie's for over 25 years- for Genie products and all material handling equipment you need look no further than CLE for unrivalled knowledge and experience

## lifting equipment: delivered to you //

What makes CLE different is the pride and motivation each Depot Manager takes in ensuring their depot has the best mix of stock for their customers. Recognising they are not going to be 100% accurate in their forecasting- CLE overstock fast moving items & speciality items with long lead times by upwards of 40%.

With thousands of individual lifting equipment products in stock at each time we will always have the right equipment for your lifting requirements. Amongst our most popular items are:

- Genie Super Lift Materials handling machines including CO2 operated range
- 110 V Electric hoists
- Glass Handling Vacuum Equipment
- Hydraulic head and toe jacks
- Manual Chain Blocks
- Wide range of manual & machine operated block & kerb lifters
- Variety of sizes of hydraulic pallet trucks
- Hydraulic & counterbalanced floor cranes
- Manhole cover lifters
- Mobile Gantries
- Manual & Electric Tirfor Winches
- Machine moving skates

## lifting equipment//

CLE are one of the few independently owned Lifting Equipment providers who operate a fully integrated ERP & MRP system and a high tech communication system between depots- offering clients the benefit of individual attention from their local depot and also the wider pool of inventory from all 4 depots.

# lifting equipment//

All lifting equipment is thoroughly and regularly tested in line with Lifting Operations and Lifting Equipment Regulations 1998 [LOLER].

If you are unsure about what lifting equipment will best suit your task—just ask: each location has upwards of 20 years of experience in lifting equipment, and their job is to give you the right equipment for your lift.

1. Gantry Hoist. Combines ease of operation of the scaffold hoist with additional lifting capacity. Ideal for use on flat roofs, the Imer gantry hoist has over 1M of extended jib.

2. Manual Chain Blocks-. Lightweight yet heavy-duty capability. All available with slack chain bags for rigging applications

3. Manual Tirfor Winch. The world renowned Tirfor winch from Concord available in three major sizes 800kg, 1600kg and 3200kg

1. Colour coded flat belt and round slings in a variety of lengths and safe working loads.

2. Man Hole Ring Lifting Pin designed and made specifically to lift and position safely concrete manhole chambers

3. Shackles ranging from 250kg to 55,000kg safe working load-like all lifting equipment and accessories CLE provide for sale or hire they are provided as standard with a test certificate.

## lifting accessories //

The lifting equipment does the heavy work, while our extensive range of lifting accessories are what will make everything work for you. Each depot has 1000's of accessories, from in-house constructed chain slings for what ever your application, from 1 tonne capacity lifting slings to 10 tonne capacity slings, to a comprehensive range of shackles and eye-bolts, and much more.

Like all our lifting equipment, our lifting accessories are thoroughly tested to LOLER standards. And both OEM and CLE customised accessories are available for sale and hire across all four locations

## vacuum lifting//

CLE stands out from the crowd when it comes to Vacuum Handling. We are one of the few companies in the UK that offer hire, sales, testing, certification and maintenance and repair for vacuum lifting and handling equipment – and carry a full range of handling accessories that every project needs to get the job done. All hire vacuum units can be used in conjunction with our lifting equipment. I.e. you can lift a vacuum handling machine on a Roust-a-bout and combine lifting and vacuum handling from one source.

If you are experienced with vacuum handling, we have got everything you need, if you are unsure, we have the expertise and equipment to point you in the right direction.

## vacuum accessories & testing//

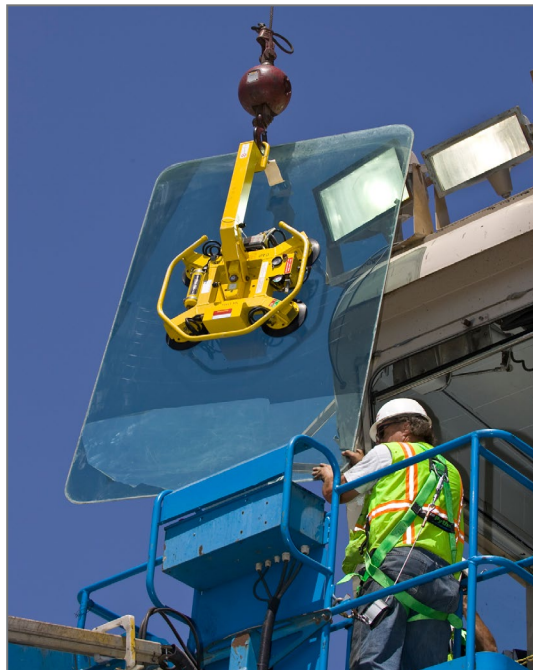

Stillages, A-frame trolleys, safety harnesses - CLE have all the relevant accessories for you to get the best from your glass lift. And its not just sales and hire, CLE offer service, maintenance and repair as well. In-house on our portrait and landscape testing rigs at the depots or on site (thorough examination only).

We are one of a handful specialists in vacuum lifting equipment providers in the UK, and part of an even smaller club that offer a comprehensive range of vacuum handling and lifting equipment.

## self contained & mains operated//

CLE carry a full range of self contained battery operated (either 110v or 240v charging) and mains operated glass handling vacuum equipment to fit your site and project needs. All our vacuum lifters are dual circuit and suitable for construction sites

## testimonials//

CLE's job is simple - to be an integral part of their customers supply chain to ensure they complete projects as cost effectively and as easily as possible. Below is some recent positive feedback received:

'Provided reliable, quick, on time and excellent service' - [Schneider GB Ltd.](#)

'We have a very good relationship with your company and I hope it carries on' - [Higgins Ltd.](#)

'Always helpful and professional' - [Axis Elevators Ltd.](#)

'It worked like a dream, lifting the 6 tonne statue and foundation in one piece with no deflection so that the marble cladding remained in tact... Thanks Concord Lifting :-)] *(on the CLE designed 20,000 kg lifting frame design and built)* - [Martin Warren Associates.](#)

## CLE locations //

Each of CLE's four depots have friendly knowledgeable staff, all include at least one of: Depot Manager, dedicated Account Managers, certified technicians and delivery drivers. All CLE depots are wholly owned by KFC Ltd - not franchises or joint ventures, allowing CLE to ensure a top level of service to its customers. Each depot offer the same wide range of products and services, and have their own specialities:

- **Wandsworth** is the head office, and is where **human resources** and **finance** are based.
- **Barking** has an industry leading **vacuum lifting test facility**
- **Charlton** have a full range of lifting equipment and accessories for hire but are CLE's specialist technical repair facility
- **St. Neots** [formerly known as Lifting Equipment & Services Ltd.] specialises in the **sale of new and reconditioned lifting equipment**, and the **fabrication of custom lifting** accessories

All of the depot contact information is below, or for general enquiries please email [info@concordlifting.co.uk](mailto:info@concordlifting.co.uk), or call **03333 66 00 99** [calls charged at your local rate, included in most mobile minutes] or if you would prefer to keep in touch via social media, all our handles are on the back cover.
